

Students entering the 4th grade are required to read a book and complete an AR test on it in their classroom during the first week of school. Tests that are taken during the summer do not count towards this summer reading assignment. The score that the student earns on the test they take during the first week of school will be used as a reading test grade the first 9 weeks. Students may choose one book from the lists below, or choose a book that is leveled as 3.0 or higher. Keep on encouraging your child to read throughout the summer. Check out the testing lab hours and bring your child to test on books they' ve read at your convenience. Thank you for supporting your child in becoming an amazing reader!

Have a wonderful summer and happy reading!

☺ Mrs. Atkins
